DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-7, 9-13, 14-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's argument of claim 1 requiring that "the IP source address translated into an internal loop back address reserved for the ingress port, the destination address translated into an internal loop back address reserved for a node within an internal network" (See appeal brief page 14) supported by the specification (See publication, paragraph 0030]) and reasoning that the "loop back address " cannot be read so broadly as to mean any internal IP address placed the application in condition for allowance (See appeal brief page 15)

Applicant's argument in Appeal Brief has been considered and overcame the final rejection (See Appeal Brief pages 12-14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
